date: 28.11 - 30.11.2016

As listed in the application form: **Ex. C1**

Activity type:	Project meeting
No. of participants:	12 participants
Venue:	Kielce, Poland Kielce Technology Park, Olszewskiego 6, Kielce, Poland
Participants:	Project staff/external experts/including experts/vocational and training institutions

1. Topic of the meeting:

Meeting concerned on the dual learning: vocational and practical training. Project partners met good practice in the use of dual education in different Project Partners countries (Poland, Germany, Spain, Turkey and Lithuania). The visit was an opportunity to share information, experiences and ideas in the field of vocational training and practical schools. Participants will bring back new ideas to our actions and organizations to help to introduce and develop new methods and approaches to services, innovative ways of learning, and wider training or service offers. The visit will also strengthen the partnership. Through exchanging experiences, networking and disseminating findings, the study visits supports cooperation among partnership.

29th November 2016, Kielce Technology Park.

This day of meeting was dedicated to work under Intellectual Output of the project. We were focused on preparing introduction of initial idea for IO within Vet Project and expectations towards project partners as the participating Organizations in every IO. Project partners presented their intellectual assumptions in the following steps:

1. Germany
2. Spain
3. Turkey
4. Lithuania
5. POLAND

Rest of the day was dedicated to visit: the Practical Centre in Starachowice.

Meeting participants were invited to the Practical Centre in Starachowice.

Representatives of the Training Centre showed the Project Partners a facility, used on a daily basis machinery and equipment and told about the activities and plans for the nearest future existence of the center. The project partners have had a lot of questions and were interested in the operation of training centers in Poland.

30th November 2016, Kielce Technology Park.

Kielce Technology Park organized an international conference on the discussed issues of dual education: practical and vocational training. The event began with the official opening by the Director of the Kielce Technology Park - Szymon Mazurkiewicz and Deputy President of the City of Kielce - Tadeusz Sayor. Representatives of the Board of Education in Kielce showed how the system of vocational education look in the region.

The next step during the meeting was the presentation of good practices by representatives of each of the partner countries and a brief overview of examples of practical training centers in the country and the region. Examples of Poland were presented by representatives of the Świętokrzyskie In-Service Teacher Training Centre in Kielce.

The first panel discussion was a summary of the current presentations. The panel was attended by people presenting before good examples in their countries. After a short break there was time to introduce to the discuss about the competition of the future. The presentation prepared by Wiktor Krasa, a doctor at the University "Higher School of Economics, Law and Medical Sciences in Kielce."

After the presentation it was time for the second panel discussion. It was attended by representatives of small and medium-sized companies operating in Kielce Technology Park. They discussed about the competitions of the future, the lack of people to work through apprenticeships, the lack of apprentices and students, and also about what skills and qualifications are needed in working life. Panel discussion caused a lively discussion among invited guests. The meeting was very interesting and fruitful. The meeting was moderated by Marcin Januchta - Manager of Promotion and PR in Kielce Technology Park.

The event was attended by representatives of the:

- Local government,
- Board of Education,
- Representatives of vocational and practical schools,
- entrepreneurs,
- the Universities,
- practical and vocational centres,
- Special Zone Starachowice,
- Świętokrzyskie In-Service Teacher Training Centre, as well as journalists.
